

Elmer Hill's report:

Hello Sam this is Elmer Hill from mid Columbia River guide service. www.midcolumbiariver.com

I apologize for no updates but I have been salmon fishing on the upper Columbia and lower Snake River outside Walla Walla. The fishing was excellent this year many double digit days for keepers. Still excellent fishing through November and December so I haven't been walleye fishing in a while. As far as a salmon steelhead update the fishing is as good as it gets trolling plugs and shrimp and bobber off the shore.

Elmer
