

Tom Fisher's report:

Big change from last trip there...2 fish all day, both keepers, the bite pretty much stopped about the time we arrived.(10:30 / 11:00) Doug and Evan pulling spinners found a few sub-legals. Dianne and I pulled and pitched jigs and only had about three bites all day.. Same place, in front of island a couple of miles down stream from the launch. 20 to 50 feet of water.
