Spokane Walleye Club General Meeting Minutes

Information for these three different but very effective fishing techniques was shared in detail. Thanks to these local experts for sharing their knowledge and helping us all become better Walleye fishermen.

Between the seminars, attendees were treated to tackle building demonstrations on powder coating techniques for jigs and Walleye spinner construction. Attendees had a chance to check out demonstrations and even try the process firsthand. Many attendees walked away with a custom powder coated jig and handmade spinner. They will hopefully feel the satisfaction of catching a Walleye on tackle they crafted with their own hands and will seek to further their skills.

The monthly 50/50 drawing was held with an amazing prize of \$250. VP Ken Shatzer was the big winner.

Door prizes were drawn for this special meeting with three winners of a rod/reel combo, spinning reel, and assortment of Walleye spinners.

Meeting adjourned at....well not really sure. It was still going at 9:00PM and there was a lot of excitement and chatter.
